SDG-oriented:

- Freedom of expression and access to accurate information, against advertisement-based creativity and fake news;

- Use of Big Tech infrastructure and library services emancipating from the services provided by Big Tech;
SDG-oriented:

- Design of Library platforms, where users become prosumers and are able to create their own resources;
- Sustainable copyright, with no dependence in the time on copyright-protected products and services;
- Qualitative evaluation, which enables the assessment of SDG-oriented library services
