The Shift from Analogue to Digital: Trends in Information Policy and The Role for Libraries in the Future

Ingrid Parent
University Librarian, University of British Columbia

13.August.2014 | Strasbourg
Sometimes it feels like we are riding a speeding train of continuing, rapid change that is just pulling out of the station.

There are a number of grey areas in terms of copyright when we look at the MOOC model.
Text or data mining is increasingly used by researchers to extract meaning from a large corpus of text.
